Analytics and consulting oriented professional with an **entrepreneurial background**, currently pursuing a **Master of Management in Analytics at McGill University**. Experienced in applying **quantitative analysis**, **AI**, and **data driven insights** to support **strategic decisions**, process improvement, and technology enabled **business transformation**. Strong communicator with experience translating complex analyses into actionable recommendations for business stakeholders.

Skills

Core Capabilities:

Business & Consulting: Structured Problem Solving, ROI Analysis, Process Improvement, Business Transformation, Critical thinker, Change management, Cross-functional collaboration, Team communication, Agile, Entrepreneurial, Structured presentation, Stakeholder Management, Insight Extraction, Data Driven Decision Support.

Data Strategy & Analytics: Decision analytics, Hypothesis testing, Digital transformation, Feature engineering, EDA & Preprocessing, Clustering, Data Scoping, Unstructured Data

AI & Machine Learning: Demand forecasting, Generative AI, RAG, , Vector Databases, Agentic AI, LLMs, Predictive/Descriptive Modeling, Applied Intelligence, NLP, ReAct, Multi-Agent Orchestration, LLM as judge, MLOps

Tools & Technologies:

Languages & Core: Python (Pandas, Scikit-learn, PyTorch, Gurobi, FastAPI, SHAP, Lime), SQL (Postgres, MySQL), Java, HTML, CSS, JavaScript, Excel, GitHub

Data Visualization: Power BI, Streamlit, Matplotlib, Seaborn, Plotly.

Cloud & DevOps: AWS (Cloud Architecture, Bedrock, S3, EC2), Azure (Logic Apps, Event Grid, Blob Storage), Docker, GitHub Actions, CI/CD Pipelines.

AI Stack: OpenAI API, LangChain, Pinecone, HuggingFace, GitHub Copilot, Google Antigravity, Databricks, AWS Bedrock, AWS SageMaker

Education

McGill University – Master of Management in Analytics (MMA)

Entrance Reward Scholarship (\$10,000)

Montreal, Canada

July 2025 – December 2026

University of Macedonia – BSc in Applied Computer Science

Concentration in Business & Finance

Thessaloniki, Greece

September 2017 – January 2022

Certifications & Courses

- AWS Solutions Architect – Associate
- AWS Generative AI and AI Agents with Amazon Bedrock
- LangChain for LLM Applications (DeepLearning.AI)
- AI Agents in LangGraph (DeepLearning.AI)
- Structuring Machine Learning Projects (DeepLearning.AI)

Data & AI Project

AI Academic Assistant (Discord) – MMA Cohort 8

- Automated access to events/documents, reducing search time and enhancing team collaboration by more than 30%.
- Developed RAG-based assistant integrating calendar + AWS S3 notes for McGill MMA cohort.
- **Tools:** Python, SQL (Supabase/PostgreSQL), Pinecone, OpenAI API (GPTs), AWS (S3, Lambda, ECR), Docker, LangChain

Automated Inventory Reporting – Cizzle Brands

- Created an ETL pipeline for automating ingesting data from irregular excel files to standardize and consolidate fragmented inventory data for reporting and analysis.
- Developed a PowerBI dashboard and a GenAI layer for report generation on the cleaned data layer.
- **Tools:** Python, Azure Event Grid, Azure Functions, Azure Logic Apps, Azure Blob Storage, PowerBI, Azure OpenAI

Retail Sales Forecasting – Le grand cormoran

- Delivered Streamlit demand forecasting dashboard for inventory & staffing optimization, reducing waste and improving efficiency.
- Designed ML pipeline to forecast café sales (10-day horizon) using POS + external data (weather, macroeconomic indicators).
- **Tools:** Python (pandas, scikit-learn, XGBoost, Ridge), APIs (Meteostat, FRED), Streamlit, Plotly

Professional Experience

Canadian National Railway – Team Lead (MMA Capstone)

Montreal, Canada

September 2025 – Present

- Leading a cross-functional team to scope, design, and deliver data-driven detection systems for railway infrastructure.
- Partnering with CN stakeholders to align project objectives with operational priorities and strategic goals.
- Translating complex data sources (image, video, LiDAR) into actionable insights through computer vision and machine learning.
- Driving measurable business impact by targeting reduced inspection and maintenance costs, improved safety, and faster decision-making

Thinkr – Consultant

Montreal, Canada

September 2025 – Present

- Advising go-to-market strategy for Nora AI a sales outreach automation startup applying for YCombinator.
- Conducting market analysis and competition analysis to support strategic positioning and investment readiness.

Le Grand Cormoran – Owner

Montreal, Canada

February 2023 – December 2024

- Directed daily operations with a team of 10–12 staff, achieving consistent revenue growth.
- Applied analytics to optimize product mix and marketing campaigns, improving ROI by ~30%.
- Streamlined inventory and financial planning, reducing waste and improving margins.

Leadership & Honors/Awards

Centraide x Intact x McGill Scope-AI-Thon (Top 3)

- Alongside my team, we scoped an AI powered solution to solve Centraide's issue of managing multi-modal fragmented data sources from across 350+ partnered agencies.
- The approach made was part of the top 3 solutions, which we will present to Centraide's executives, in order to help their cause of serving vulnerable groups.

Aldo x AWS Retail Hackathon – Team Lead/Solutions Architect (1st Place)

- Spearheaded a team of 5 to develop a voice agent "Whisper" augmenting Aldo's sales associate and ensuring alignment between employees and the head offices.
- Delivered and presented an AI enabled business solution to senior industry stakeholders from Aldo and AWS and won 1st place and \$6000 prize.

Databricks Hackathon – Team Lead/Agentic AI Developer (3rd Place)

- Lead my team into creating an Ai Pharmacy Agent on the Databricks platform.
- We achieved 3rd place; surpassing teams formed of Databricks professionals.

Desautels Graduate Entrepreneurship Club – MMA Representative

- Acting as the primary liaison between the MMA cohort and the entrepreneurship club to foster cross-disciplinary collaboration.
- Organizing networking events and workshops connecting data analytics students with the broader startup/entrepreneurial ecosystem.
